Guam Water Well Data

Well Name 5th Ship Service Depot Well #1 Coordinate Well No. _____

Other Names and/or numbers (explain) _____ Office Well No. _____

Data Recorded by _____ Date _____

Data Checked by _____ Date _____

Source of Data _____

Owner _____

Contact at _____

Driller _____

Contact at _____

Type of Well (drilled, dug, natural, etc.) _____ Date redrill 1949?

Depth (ft.) _____ Meas. by _____ Date _____

(ft.) 193 Meas. by _____ Date _____

Diameter (in.) 8

Casing: Depth (ft.) 193 Type _____ Finish bottom 20' of casing perforated

Aquifer _____

Water Level (ft.) _____ Date _____ Above _____ Below _____

which is _____ ft. Above _____ Below _____ Meas. by _____

Pump: Type _____ Capacity (gpm) _____ Setting (ft.) _____

Well Yield (gpm) _____ Determined by _____ Date _____

(gpm) _____ Determined by _____ Date _____

Drawdown (ft.) _____ after _____ hours pumping at _____ gpm.

Determined by _____ Date _____

Specific Capacity (g.p.m. per ft. dd.) _____ Date _____

+ 4" Peerless 60 gpm "twister" pump

Well Name _____ Coordinate Well No. _____

Office Well No. _____

Use (if well is abandoned, explain and give date) _____

Maximum Daily Pumpage (gpd) _____ Date _____

Minimum Daily Pumpage (gpd) _____ Date _____

Average pumpage (gals.) Daily _____ Monthly _____ Annually _____

Hours operated Daily _____ Monthly _____

Is water treated? (Explain) _____

Has well been repaired, cleaned or modified since it was completed?
(Explain and give dates). *the well was redrilled 7-27-99*

Measuring point (describe, sketch, give elevation and datum used, and date established). *elev of well 179'*
